- You were very organized and did a great job walking us through discussion handouts and explaining key concepts. I could tell that you are very interested in the field and willing to answer questions even if they were not related to the course.
- Jakob is very helpful and concise when explaining difficult econometric concepts. In my visits to his office hours he really helped me clarify topics that I was confused on. He did a wonderful job as the TA of this course.
- Everything was essentially satisfactory. Jakob was helpful, explained the content in depth, and went slow enough, step-by-step, with Stata. His explanations of proofs were also very clear and he explained his reasoning well.
- Jakob is helpful and is willing to help students during his office hour too.
- the pace of teaching was very helpful. it was useful to be able to break down problems a little bit more in depth than we do in lecture.
- I have really utilized his help this semester with the course and he has helped me tremendously. He has been vital to my success in this course. I have emailed him and gone to office hours and he is consistently the best help. He is the best TA I have ever had as he really cares about his students and wants to make sure we understand the material. I am very appreciative of him and his help!
- I think that it would have been helpful to give us some time to work on the problems ahead of time. I think that most of the time I felt like I was listening, not really thinking. I do feel like the sections did really help to clarify things that confused me from lecture.
- I thought Jakob did a great job summarizing the class material for that week, and showing how we can apply those topics to the discussion worksheet problems. He was very knowledgeable and came to discussion well prepared and organized. His clear teaching style greatly supported my learning.

- I don't like econometrics, busy schedule, and general life conflicts throughout the semester.
- No. Overall, the discussion section is great and Jakob always comes prepared
- Probably just the structure; I did not have time to do the questions so I wasn't confident in participating because I didn't know the answers.
- n/a
- N/A, Jakob gave the class plenty of opportunities to participate and ask questions, and had very thorough responses to any questions asked.
- Nothing, I feel comfortable participating in our discussion section. He is always well-prepared and is able to explain the material in a way that works for me. His discussion section is so informative and I make sure to never miss.

- Explain the material in detail could be more helpful.
- Jakob did a great job of covering the discussion section handouts and answering any questions

What, if anything, limited your participation in section? (TA's style, other students, course structure, time of section, lack of preparation, etc.)

Type: Text/Memo

ECON 410 301

- Time of section - 8:50 on a Friday is doable but not enticing
- Summarizing what we should do for each type of question would be better
